

Nitecore IMR18350 700mAh Rechargeable 18350 Battery

NITECORE IMR 18350 Rechargeable Battery

High performance rechargeable battery from Nitecore specially designed for high drain devices like Nitecore EC11 and other high power LED search light and tactical flashlights.

Specification:

- Nitecore IMR 18350 3.7V Li-ion rechargeable battery
- Maximum Continuous Discharge Current: 7A
- Capacity: 700mAh
- Voltage: 3.7V
- Chemistry: Li-ion

Warning:

To avoid over-charging, use charges with auto-shutoff protection circuit. We recommend the Nitecore UM10, UM20, I2, I4, D2 and D4 chargers.

To avoid over-discharging, recharge the battery once the output voltage drops below 3.2V.
